

Internships

In the field of health and medicine, our Energy Medicine Practitioner Program is groundbreaking, providing partnership in patient care at various hospitals, clinics, nursing homes and medical offices nationwide. Some of the departments currently receiving our services are Oncology, Family Medicine, Alzheimer units, Women's Health, as well as Medical and Surgical Inpatient Units.

Hospital Affiliations:

CT: Hebrew Health Care, Danbury Hospital, Greenwich Hospital, St. Francis Hospital, Stamford Hospital, UCONN John Dempsey Hospital & more.

AZ: Quality of Life Medical & Research Center; **NJ:** Raritan Bay Medical Center; **NM:** Holy Cross Hospital; **NY:** United Methodist Homes; **RI:** St. Elizabeth Home & more than 20 others.

Continuing Education Credits:

IHAS offers CEUs and Contact Hours for some professional organizations. Call us for more details.

Our school is approved by the Connecticut Commissioner of Higher Education.

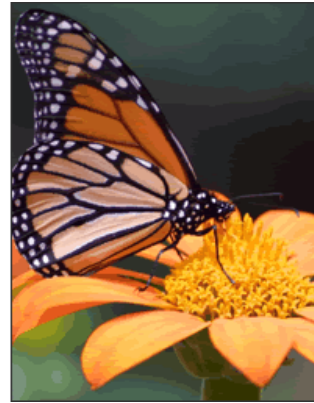

“IHAS has taught me that by letting go of judgment and self-imposed limits, the impossible becomes possible; lives are transformed and healing takes place. This is not only my understanding, it has been my personal experience.”

Anne Murphy
Professional Educator

Workshops

IHAS offers a variety of seminars and workshops of interest to those in the healing profession and to the general public.

Workshops and events are listed on our website at www.instituteofhealing.com. To receive a list of our Upcoming Events via email, enter your email address in the box provided on our homepage to receive our monthly eNewsletter.

“My training at IHAS continues to be one of the most significant experiences of my life on both a professional and personal level. It has provided me with a platform from which I can stop living in fear and leap beyond myself; opening my eyes to the wisdom of Spirit and my heart to the experience of real intimacy.”

Pat Dionne-Dickson
Founder & Director
Spiritual Wellness Center
Class of 1998

Anguilla, BWI

The 4-Year Program includes an Intimacy Workshop on the island of Anguilla, BWI.

“Anguilla has probably been the most powerful and life-changing experience to date in my life. I went down there fairly cemented shut, but, by mid-week, my softening, or the opening up of “me” had taken on an unstoppable momentum. I am so much more aware of me. The door has been opened and I am stepping through it. Let's see what emerges next from this gift!”

Our Philosophy of Healing

The Institute of Healing Arts and Sciences, Inc. (IHAS) was founded by Dorothy Martin-Neville, Ph.D., to provide a safe, intimate, and sacred space where students can learn to connect with and deepen the natural healing abilities we all possess as embodied souls. At IHAS, we believe that our emotional and spiritual well-being directly affects our physical health. Through an integrated understanding of the body-mind-spirit-energy connection, we learn the true nature of illness and disease in our life and in the lives of others. We learn to bring a heartfelt healing presence to our life's work, and to assist others to live in greater health and balance.

Energy Medicine Programs

The 4-Year Energy Medicine Practitioner (EMP) Program, 4-Year Advanced Energy Medicine Certificate (AEMC), and 2-Year Energy Medicine Certificate (EMC) Programs provide students with a comprehensive understanding of the psycho-spiritual issues related to physical illness, training in energy techniques, and the experience needed to practice Energy Medicine.

Students learn the practice of Energy Medicine through the study of The W.I.S.E. Method™ (Wholistic, Integrated, Spiritual Energies) that was developed by our founder and president, Dr. Dorothy Martin-Neville. Both programs are open to those already in the medical community, as well as those who choose to enter the healing profession by becoming an Energy Medicine Practitioner. Each program emphasizes self-awareness and self-understanding, as we believe you must work to heal yourself first before you can truly assist others in their healing process. For those already working in patient care, the study of Energy Medicine will help to transform your current worldview, and, therefore, impact how you interact with patients.

4-Year Programs: EMP & AEMC

The 4 year programs are 6 weekends each year, 572.5 classroom hours, and run from September through May. The schedule includes 30 hours in Anguilla, BWI for an Intimacy Workshop. These programs are designed for those exploring in-depth personal and professional growth, and for those who seek the skills necessary to become highly trained and effective in the field of Energy Medicine. Juniors and seniors participating in the internship program will receive an **Energy Medicine Practitioner Diploma**. Juniors and seniors not participating in the internship program will receive an **Advanced Energy Medicine Certificate**.

2-Year EMC Program

This program is 8 weekends each year for 2 years, 272.5 classroom hours, and runs from September through July. It is designed to be identical in content, classroom hours, and credit to the first 2 years of the 4-Year EMP Program. This program gives students an opportunity to attend classes on Friday evenings 6:30pm-9pm, Saturdays 9am-5:30pm, and Sundays 9am-5pm, who can't attend class all day Friday. Students who complete the 2-Year EMC Program can then, if they choose, seamlessly transfer into the Junior year of either of the 4-Year Programs.

Year 1 Modules (All Programs)
